Q.8 Read the following passage and answer the questions given below:

Some ants are social insects. It means that they live in societies, cooperate with one another and do only the work assigned to them. They go out in search of food in an orderly manner, marching in lines and columns like soldiers. Different groups of social ants have different job to-do. They manage their affairs through division of labour. Some ants guard and protect their community. They fight against the other insects who attack them or raid their colony. They are called soldiers ants. Another group gathers food for the whole community. The social ants have not learnt the division of labour, they have inherited it.

- Give a suitable title to it.
- Why some ants are called soldier ants?
- What do you understand by social ants?
- Give present participle form of done ; taught
- Give noun of ; different, co-operate.
